Wire Stripper Machine

MAKE Bronneberg

MODEL Kab-V

Notes: 110 Volts, Single Phase, 2 HP
Cuts from 1/16 to 2.4 inch od
Production: Approx. 50 ft a minute
154 lbs

The most versatile table top wire stripper machine available, and the only single phase, double stripping capability/mechanism available. Using the spindle the machine is easily adjusted, setting the position of the cutting blade allowing PVC and rubber jackets to be easily separated from the wire. Also equipped with a separate squeezing function to process even the thinnest single core wires. The combination of the heavy duty frame and the 2 HP drive makes the Kab-V the most powerful and versatile table top wire stripper of its kind.
